

# Living Beyond Hope and Fear: Social Confidence *and* Climate Change

**August 12-14, 2016**  
at the Boulder Shambhala Center

Featured presenters:

Meg Wheatley

Adam Lobel

Rev. Fletcher Harper

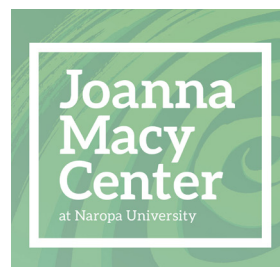

This summer symposium at the historic Boulder Shambhala Center provides an opportunity for activists, scientists, artists and others to address one of the most critical challenges of our time.

Guided by **Meg Wheatley**, author and systems thinker, **Adam Lobel**, eco-warrior and Shambhala Buddhist teacher, and supported by session leaders from civil government, science, and faith communities, we will explore how society's natural insight and goodwill can promote effective change and global well-being.
